

(Tas) Judges Training Regulation 3A Retrieving.

1 The ANKC NRAFT elected a panel of 4 persons including the Chairman of NRAFT (may be same committee as international judges panel)

2 The panel to oversee all upgrades at all levels by receiving documentation from the candidate's member body RAFT indicating that the procedure as listed at that time within Regulation 3A has been followed.

3 The documentation will be on an approved form obtainable from the panel and include Name of examiners and recommendation from those examiners re elevation and will include a pathway of events as set out in Regulations 3A.

4 The review will include date, pass percentage re theory components and examiners names, and their recommendations. It will also include dates of practical/mock trial, Lectures and tutorials as described in Regulation 3A

5 On receipt of this documentation the form shall be forwarded by electronic means to all panel members. On approval of the majority of the panel the chairperson will inform the candidates member body of their results which may be either elevation to the level applied for or extended training on specific areas . This shall take no more than 14 days from the panel receiving the initial report.

Rationale

We have a National programme as indicated by Regulation 3A and as such any judge is an ANKC judge not a state judge and as such needs to be examined on an equal basis. We need a regulated National programme that will be followed

Appointing a panel will do just that oversee a National Judges Training Programme
